Dynasylan® 1124 in Adhesives & Sealant Applications

Symmetric secondary aminosilane, with 2 trimethoxysilyl functions

(To)-Adhesion promoter for especially high strength adhesives

Additive with a high crosslinking ability (dual cure technologies)

Reactive additive for PU-based primers

High efficient endcapper for NCO group modification

Special STPU binders to realize for (mainly) adhesives

High purity, no undesired side reactions/crosslinking

Dynasylan® 1124

• STPU
• STPE/MS-Polymers
• PU
• Silicones
• EP
